**Abstract:** The abstract only, should be concise and should contain no more than 300 words. In conjunction with the Conference for Sustainable Development theme, papers of relevant topics within the conference theme are invited for oral/poster presentations. Authors are requested to submit an extended abstract in total not exceeding three (3) pages in English. The extended abstract must include the title, author(s) introduction of the problem statement trying to solve, purpose of the study, research methods, findings and results, conclusion and references. All illustrations must be prepared inside of the main text. Selected papers will be published in the issue of the South East European Journal of Sustainable Development (SEEJSD). After the conference presentation of the extended abstract, should include all insights and comments or recommendation from the conference participants and prepare the journal manuscript. The Journal manuscript template and other details are provided on the Journal web site <https://seejsd.unt.edu.mk>

## Introduction

Introducing the problem and arguing why this research study undertaken by the researchers is important to be addressed and solved. Explain the gap in the published research regarding the topic, and reference previous research that address this problem or domain.

## Purpose of Study

The research study should clearly emphasize the purpose of the study and explain and argument what it's trying to contribute with, and briefly describing its possible contribution/s.

## Research Methods

The research method used and the methodology must be clearly stated and described in sufficient detail stating the hypothesis and research questions with sufficient references.

## Findings and Results

The expected findings and arguments of the work should be described and explicitly argued. All the tables, images and figures should be centered. Figures and images should be numbered and figure headers should be placed under the figure or image; as for the tables, they should also be numbered and the table header should be placed at the top. References (if any) of the tables, figures and images should be presented right under the tables, figures and images in the form of author surname and publication date.

## Conclusions and Recommendations

Conclusions should include (1) the principles and generalizations inferred from the results, (2) any exceptions to, or problems with these principles and generalizations, (3) theoretical and/or practical implications of the work, and (4) conclusions drawn and recommendations as well as future work empathizes.
